Adobe® Acrobat® Reader® Information

Viewing the IATF Release 3.1 PDF files requires you to have a copy of Adobe® Acrobat® Reader® on your computer. If your system does not have Adobe® Acrobat® Reader®, this CD-ROM contains a copy of the publicly distributed Adobe® Acrobat® 5.0.5 Reader® and the Adobe® Acrobat® Reader® 5.0.5 Accessibility and Forms patch. You may install (or upgrade to) Adobe® Acrobat® 5.0.5 Reader® from this CD-ROM.
To install Adobe® Acrobat® 5.0.5 Reader®:

- Run the files **rp505enu.exe** from this CD-ROM.
- Follow the installation instructions presented.

To Install Acrobat® Reader® 5.0.5 Accessibility and Forms patch:

- Run the file **A505AFP1.exe** from this CD-ROM.
- Follow the installation instructions.

Note that in most cases, the patch is not required to use the CD-ROM, but it is made available to ensure that IATF users can have the latest version of Adobe® Acrobat® Reader® 5.0.5 that is available at the time of production.
