1. Covered the new model format for the EIM framework
2. Assigned actors to activity diagrams for EIM Core Processes
  - a. Actors can be organizational roles or computing-based functional actors
3. Began identifying activities for various sections under EIM Core Processes
4. It has been noted that the EIM framework will be constructed in EA and moved to the Requirements Specification at a later date
  - a. Primary focus at this time is the Use Cases
