

SG Security Webinar

Monday, June 20th – 3-4pm EDT

Chair: Darren Highfill
Vice-Chair: Bobby Brown
Secretary: Nick Gerbino

Agenda

1. Review Agenda / Call for Items of Business - Agenda accepted and no new items
- 2. Next Meeting: Monday, July 11th, 3:00 PM to 4:00 PM EST**
3. Old Business
 - a. Subgroup updates
 - i. ASAP-SG
 1. Will not be able to continue into DOE's next fiscal year
 - a. No private funding forthcoming
 - b. No more security profiles
 2. Updating the Blueprint document for detail and guidance on how to build a security profile – by Sept 30
 3. Series of artifacts on how a Utility would use a security profile
 - ii. CyberSec-Interop Task Force
 1. Actively planning next Lemnos Interoperability demo at EPRI in Knoxville for August 9 - 11th. The demo will be for EPRI's utility members, and will hopefully generate enough interest to keep the Lemnos project funded with industry support. IPsec, ssh and LDAP ICP's (Interoperable Configuration Profiles) will be demonstrated.
 2. Contact Brian at brian@enernex.com for details on attending the demonstration

Question: Status of Syslog ICP?

Response: Proving difficult in getting off the ground.

iii. Usability Analysis Task Force

1. DM Security Profile – round 2

- a. 120 comments received that need to be reviewed
- b. Updates needed for the dates.....

Activity	Start	Finish	Status
SG Sec WG comment period Comments from: Xanthus, FPL, APS, AEP, SAIC	5/16/2011	5/30/2011	Done
UA TF comment resolution	6/6/2011	7/25/2011	In progress
SG Sec WG review period	7/25/2011	7/31/2011	
SG Sec WG voting period	8/01/2011	8/08/2011	

2. WAMPAC Security Profile

- a. Several sets of comments have been received
- b. Looking for a few more sets of comments
- c. Comment period ends today
- d. Updates needed for the dates

Activity	Start	Finish	Status
SG Sec WG comment period	5/16/2011	6/20/2011	Done
UA TF analysis period	5/16/2011	7/11/2011	In Progress
UA TF comment resolution	7/11/2011	8/15/2011	
SG Sec WG review period	8/15/2011	8/22/2011	
SG Sec WG voting period	8/22/2011	8/29/2011	

iv. Embedded Systems Security Task Force

1. General Meeting took place and chaired by D. Thanos – Proposed 2 new task forces

- a. Device Security Management TF
 - i. Device robustness and managing the devices
- b. Device Security TF
 - i. Identity, authentication, key management, random number generation
- c. Separate calls held for each and limit the call to a single topic until it overflowed to another topic
- d. Working on a defined schedule for meetings
- e. Recurring issue of using SharePoint to manage documents

2. Topic needs to be added to the F2F Meeting in Vancouver

Question: What about hardening of device?

Response: This will fall under device security management

b. Ad-hoc tasks

i. OpenADR support

- 1. Determination: 3PDA use cases do not apply
- 2. Use ASAP-SG process (as illustrated in WAMPAC SP) to define security requirements – creation of new security profile
- 3. Call for more OpenSecurity participation on this effort

- a. Xtalk Listserv already established
 - b. Contact Darren Highfill or Bruce Bartell bbartell@xtensible.net
 - ii. SG Network support (C-I-A rankings)
- 4. External Engagements, Business, & Issues – No critical issues that need to be discussed.
 - Voted to table this update for a preview of how to use the WAMPAC Security Profile**
 - a. NIST CSWG & PAPs
 - i. AMI Security Subgroup
 - ii. PAP10, PAP18, others?
 - b. NERC CIP SDT
 - c. IEC TC 57 WG 15
 - d. ICSJWG Solutions Technology Subgroup
 - e. NERC Cyber Attack Task Force
 - f. DOE-NIST-NERC collaboration: Risk Management Framework
- 5. New Business
 - a. Preview of how to Use WAMPAC Security Profile – D. Highfill presented
 - i. Document that could be used as a tool for the Usability Analysis Task Force
 - ii. Agenda item for F2F in Vancouver
- 6. AOB
- 7. Roll Call
